# Parental Request to Withhold Use of Student Images in Publicly Accessed Media

We have a large percentage of our students who excel academically and in cocurricular activities throughout the school year. Hence, they are recognized publicly in the press and electronic media. Additionally, photographs, videotape or other images of students are often taken during school activities by employees, students, or persons contracted by the Wilson Area School District, or under its direction, and then used in school publications, such as the school newspapers or school yearbooks. Such images are sometimes shared with and used by various public media, such as local newspapers, district contracted photographer, or used in district media that have wide community circulation, such as the district informational brochures, and web pages.

Accordingly, a parent or guardian may elect to withhold permission to publicize their son or daughter's image. If you want to **withhold** your child's image from publicly accessed media, please return this form to the building principal with your child's information and your signature. The School District will not be liable for an unintentional disclosure, but will make every effort to comply with your wishes. Unless you sign and return the form below, the school district will not oppose access of your child's image by public media, and may use your child's image in the district and contracted photographer's web pages.

Note: The District cannot restrict media access at events open to the general public (i.e. athletic contests, graduation.)
